School Profile 2024/2025

Yago School is an International School located in the residential area of the metropolitan area of Seville (Spain), called El Aljarafe. The School, founded in 2010, is accredited by different prestigious institutions in the educational field such as the Spanish Ministry of Education, the International Baccalaureate Organization (IBO) and the Western Association of Schools and Colleges of the United States (WASC).

VISION

Yago School sets the standards for a principled education that enables our students to be part of their own learning journey that is personally and socially transformative in an ever changing world.

MISSION

Yago School provides a principled education so that students become lifelong learners and responsible citizens. We assist students in discovering their talents and in developing their human, intellectual and emotional potential to the fullest. We nurture in them the creative, critical and technical competences necessary to respond to the present and future challenges.

The Yago School team is continuously learning, adding value to the organization, understanding the school's vision, therefore committing themselves to achieve excellence and act as a guide and inspiration to the students. We take full responsibility for the international, human, social and intellectual formation of our students.

ENROLLMENT

Enrollment currently stands at **938** students aged 0 to 18 years.

183 NURSERY & EARLY YEARS

367 PYP PRIMARY

388 MYP & DP

CLASS SIZE The average class size is **18**

SCHEDULE

- The school year is comprised of 38 week divided into 3 trimesters from September to June.
- 45 to 55 minute periods five days a week. 9 am to 5 pm timetable.

A place to learn, dream, achieve, share and be.

UNIQUE PROGRAMMES

YPROJECT

One of the pillars of our educational project is **training students in the latest Information Technology**. Every student learns coding, robotics and computer science from a young age using **iPads, MacBooks, 3D printers, Lego Education Innovation Studio Robotix**. The YPROJECT utilizes computational thinking through Problem Based Learning (PBL), Cooperative Learning, Process Based Learning and Learning by Doing.

INTERNSHIP PROGRAMME

An inquiry based pedagogical approach that provides students with the opportunity to enhance their learning. Students are launched into the **real life job experience at top local companies**.

STUDENT COUNCIL

The Student Council is committed to amplifying student voices, fostering a vibrant community spirit, and engaging students in a variety of impactful initiatives. Each year, the Council proudly represents the school at key events such as the University Fair, International Day, and new student tours. **Through regular meetings with school leadership, they address student concerns and propose innovative solutions.**

Their initiatives, like the popular Candy Gram project, participation in Model United Nations, and the creation of a unique commemorative keepsake—designed by students and 3D printed by the Technology Club—highlight their dedication to enhancing the student experience. Proceeds from these efforts support the Yago Foundation and other student-led projects, enriching our school community.

DEBATE

Students have the opportunity to engage in the Spain **European Youth Parliament**, a forum that encourages critical thinking and the expression of their opinions on a wide range of global and societal issues. This initiative fosters an educational spirit focused on addressing the challenges and aspirations of European youth.

Our students also participate in the **Model United Nations programme, which immerses them in the world of diplomacy and international relations**. Through participation in mock United Nations sessions, the Modelo del Parlamento Europeo (MEP), and the CICAIE Pre-University Debate League, students develop essential skills such as research, public speaking, critical thinking, teamwork, and leadership.

The opportunity to lead and participate in various school activities.

YAGO SPORTS ACADEMY

Participation in Sports is highly encouraged at all stages and is reinforced through our extra curricular programme. **Students are encouraged to learn innovative sports disciplines and participate in official external sports competitions.**

CLUBS

Clubs are **created and run by the students, offering a unique opportunity for them to develop their own initiatives**. These clubs allow them to organise and manage activities based on their interests, such as sports, art, technology, debating, or social causes. Through this experience, our students gain leadership, teamwork, and time management skills, while also fostering creativity, responsibility, entrepreneurship, self-management, and a strong sense of belonging within the school community.

SCIENCE FAIR

Each year students are able to participate in a science fair with a variety of educational institutions including local schools, universities and research centers. At the Science Fair students have the opportunity to present their science projects and experiments.

SPUTNIK TRANSFORMATION PROJECT SCHOLARSHIP

The Sputnik Project **identifies and mobilizes the most talented and ambitious students**. It promotes entrepreneurship, technology training and encourages them to create start-ups of the future.

THE YAGO FOUNDATION & CAS

Together, these two programmes give students **the opportunity to lead and participate in various school clubs and volunteering activities**, including the Fun Fair, Voluntariado Exprés, the La Olivia Project, the APU Charity Marathon, the Food Drive, visits to care homes, and more.

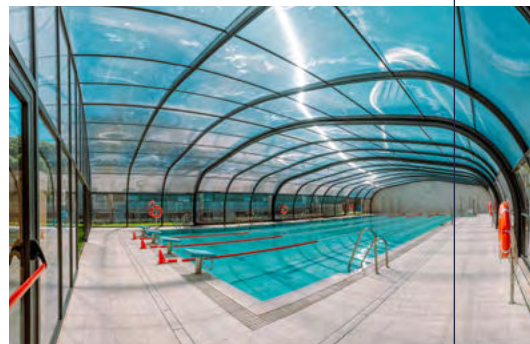

PERFORMING ARTS - YAGO YOUTH THEATRE - DRAMA CLUB

Our youth theatre club provides an **engaging and supportive environment for young artists to find their voice, develop their acting skills, build confidence, and have fun**. They will take part in a variety of activities such as improvisation games, character workshops, and large-scale productions, all designed to help them enhance their skills and creativity.

FACILITIES AND RESOURCES

Yago School has a significant amount of **human resources, infrastructure, material and technological resources available to International Baccalaureate students.**

UNIVERSITY AND CAREER COUNSELLING

We guide our students on their path towards university and professional futures. Through a holistic approach, we help them identify and understand their talents, interests, values, and preferences, motivating them to explore the options available in both academic and professional fields.

We are committed to promoting student proactivity through our University and Career Counselling programme, helping them address information gaps and biases that may affect their decision-making process. **We inform our students about the different alternatives available to them upon completing Secondary school and Baccalaureate**, encouraging them to research and reflect in order to adequately prepare themselves for their first foray into university life and the workplace. Furthermore, we provide them with the tools, strategies and networking opportunities necessary to make **informed and confident decisions about their future.**

Our objective is to equip each of our students with the resources they need to become the architects of their own path to success.
